Central & Eastern European Construction Recruitment

Euroresource International Ltd is a dynamic, fast growing International Construction Recruitment Agency. Based in the UK, we work together with a network of partners throughout Eastern & Central Europe. From a small business started in 2004, we have grown to become one of the most respected names in construction and engineering recruitment.

Our leading status recently received a boost when we were asked by Sir Digby Jones (Chairman of the CBI - the Confederation of British Industry) to participate in Channel 4 television's programme about the impact migrant construction workers from Poland are having on the construction industry in the UK.

The Listening Company

We understand totally that getting the recruitment process right is crucial to our clients' success since recruiting the right people is the most important factor in determining how well our clients do in their business and how well we do in our recruitment business.

Through experience we have found that, key to successful recruitment, is the ability to closely listen to both our clients and candidates alike in order to perfectly match our candidate's personal aspirations to our client's needs.

We constantly strive to maintain the highest level of quality and integrity throughout the recruitment process which helps us ensure that we submit only the best and most suitable candidates in line with our client's best expectations.

We always pre-screen every candidate carefully before submitting his/her details to our clients to ensure that the best matching is achieved from both our client's and our candidate's perspectives and that staff retention is high.

From temporary staffing through contract solutions to permanent recruitment, our construction recruitment expertise can play a vital role in helping ensure your company's future success by enabling you to locate those workers that will become your most important future business asset.
